**NextStone™** is a uniquely formulated polyurethane with UV inhibitors and fire retardants. The proprietary in mold coatings are chemically bonded with the molded surface of the panel. Panels are easily cut, no special tools required. The screw strip acts as a guide for attachment and is covered by the overlap on the next panel. NextStone's patented interlock and weep channel technology provide a realistic finish with outstanding durability. Backed by a 20 year warranty.

## No Caulk Required!

Tongue and groove top-to-bottom interlock.

Recessed panel back and weep channels.

U. S. Pat. No. 7,748,183

## NextStone™ Slatestone Panel

Available in eight\* designer colors. Panel dimensions are 8 1/4" x 43" x 1 3/4" and cover 2.14 square feet. Stones vary from 5/8" to 2 1/8" in height.
